

Key Resources for Clinical & Ethical Dilemmas

Get the relevant information and support you need to enhance decision making and reduce your risk of moral distress or other adverse events.

Your Clinical Judgment

Slow down to engage your reflective faculties. Consider direct, contextual knowledge & relevant standards. *What are your pre-critical instincts? What would you recommend to a colleague facing this?*

An Ethics Consultant*

Structured support in complex moral reasoning to maximize benefit & reduce harm to patients, the public, & yourself.

Your Liability Insurance's Risk Manager

Guidance to reduce the risk of licensing board complaints, disciplinary actions, or lawsuits. Referral to an attorney for specific legal advice.

Your Licensing Entity*

Online resources & general information on the state's jurisdictional rules & practice laws. Established to protect the public not clinicians.

Your Colleagues &/or Supervisor*

May offer emotional support, clinical consultation, as well as information about agency policies & workplace norms.
